

SECURITY CHEAT SHEET

ACCESSING YOUR ACCOUNTS USING YOUR MOBILE APP IS VERY SECURE.

When you login with your smart phone, you are accessing with the same multi layer security that is used if you logged in from your desktop computer.

We confirm your credentials along with the device you are using. This strong approach to security, provides simple convenient access to your accounts, and powerful protection against online fraud.

As an added layer of security, you may be asked to answer one of your security questions before you are securely logged in.

From the services option, under the "More" tab, you can change the currently logged in user as well as forget users that are no longer needed.

Press OK to return to the log in screen.
